

How To Play Forknife

Gameplay:

Survive as many rounds as possible. **Each round completes when the enemy tower is defeated.** The game ends when you or your tower are defeated.

Zombies will spawn during each round and move towards you or your tower. They do melee damage when close and can also knock down structures. When defeated they have a chance of dropping building materials, ammo or health.

You can shoot or use melee to destroy zombies, structures or towers but keep in mind you have limited ammo and melee is quite close range. Defeat all the zombies to have downtime between rounds to build defenses.
